

Extra Special Birthdays: The 6 Least Common Birthdays in Ireland

With just **67 births** recorded, **Christmas Day, December 25th, in 1994** had the **lowest births** recorded in a single day in Ireland between the years 1980 and 2021. Conversely, **September 25th 2008**, exactly **9 months after Christmas**, had the highest daily births recorded with a total of **279 births**!

On average, **February 29th** is the least common day to be born due to it occurring only once in every 4 years. For dates which occur every year, the least common days to be born in Ireland are the **26th, 25th, 24th December, 17th March and 1st January**, in order of lowest average births, based on the daily births in Ireland between 1980 and 2021. The lowest average daily births of 108, occurring on the 26th December, is **just 64%** of the overall daily average.
